

The Department of Computer Science at Knox College invites applications for a full-time, tenure-track assistant professor beginning Fall 2020. Knox is an independent, selective liberal arts institution with a strong commitment to undergraduate teaching. Computer Science at Knox is a dynamic, growing program, with an orientation towards combining rigorous foundations in experiential education, student research, and collaboration with other departments. We are particularly interested in candidates who can contribute to teaching and learning for a diverse student body in which 30 percent are first-generation college students, 40 percent are domestic students of color, and 19 percent are international students. Our students engage in a high level of both on-and-off-campus undergraduate research, internships, and application development with faculty.

Candidates in all areas of specialization are welcome, but we are especially interested in one or more of the following areas: Computer Science Education, AI/Machine Learning, Computer Security/Cryptography, HCI, and Graphics. The successful candidate should be able to teach a broad spectrum of courses across the ACM/IEEE CS curriculum. Interest in leading undergraduate student/faculty research is highly desirable, as is an interest in interdisciplinary collaborations. Additional information is available at: <http://cs.knox.edu>.

Qualifications: Ph.D. preferred, but exceptional candidates with an advanced degree and equivalent experience will be considered.

Candidates should submit: a cover letter addressing how the candidate's teaching interests and experiences are suited to a selective, diverse liberal arts college; a curriculum vitae; a statement of teaching philosophy and research interests; and three confidential letters of recommendation.

Submission via Interfolio: <http://apply.interfolio.com/71452>. Questions may be addressed to David Bunde at cssearch@knox.edu.

Review of applications will begin on December 5 and continue until the position is filled.

Notice of Non-Discrimination

Knox College does not discriminate on the basis of sex, pregnancy, gender identity or expression, race, color, creed, national or ethnic origin, religion or religious affiliation, sexual orientation or preference, age, marital or family status, disability, veteran status, or other status protected by applicable federal, state, or local law in admission, financial aid, employment, athletics, or any other aspect of its educational programs or activities. Any

inquiries regarding Title IX or the College's policies that prohibit discrimination should be directed to the [Title IX Coordinator or the Department of Education Office for Civil Rights](#).
