

KNOX COLLEGE EDUCATIONAL PLAN FORM

OFFICE OF THE REGISTRAR

Use this form to report that the educational plan has been approved.

In consultation with his or her advisor, each student will develop an Educational Plan that meets the goals of general education specified in the Catalog, and that satisfies the requirements for a major. The development of this plan begins upon matriculation. The plan is assessed and revised periodically throughout the student's years of study. Formal approval of a student's current educational plan by his or her pre-major advisor is required prior to the end of the sophomore year or when the major is declared; the plan may subsequently be revised, subject to the approval of the major advisor. While each student's plan will reflect his or her general preferences, aspirations, plans for off-campus study, career planning, etc., all plans must share the following features:

- a. Each student's plan must include First-Year Preceptorial and meet the goals in Foundations, Key Competencies, and Experiential Learning
- b. Each plan must include the completion of a major and a second area of specialization.
